

## RoboCam R1 Camera Mounting Options

# RoboCam

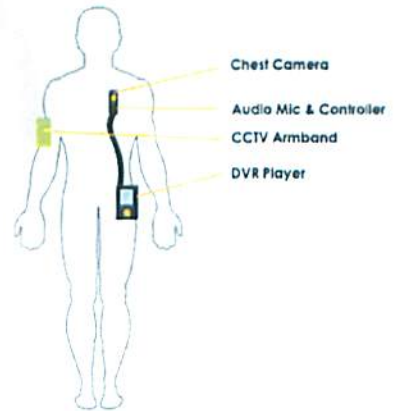

## RoboCam Head Camera

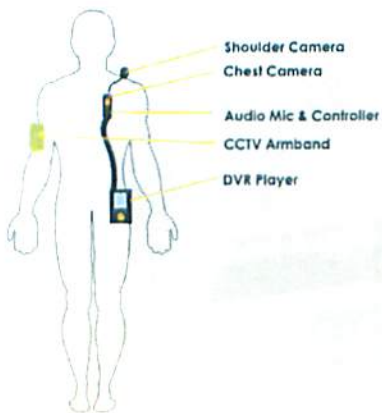

In the First Image, the Headcam is shown using the chest camera as an optional extra, which allows the chest camera to continue recording in cases where the head camera has been forcibly removed.

## RoboCam Chest Camera

In the Second image, the RoboCam chest camera is used as the primary camera. (optional Extra)

## RoboCam Shoulder Camera

In the third image, the RoboCam shoulder camera attachment is used with a bullet camera. This is then plugged into the chest camera (optional extra)
